 **Offline Search Tool (Prototype)** A pre-fed search interface that mimics memory-based recall.

Enter a keyword or topic, and the tool fetches saved/bookmarked summaries you've "viewed earlier" — simulating offline personal search.

How to Use this Tool

1. Enter any keyword or phrase you've previously viewed or saved — like
 - *"India space mission", "Time & Work", "Quantum Physics"*
2. (Optional) Choose a category to narrow down the search:
 - Notes, AFCAT, IR, News, Personal
3. The tool will fetch the **closest matching saved result** from your manual memory base
4. You can update or add your own entries to expand your searchable "memory"

Field	Description
 Search Input	<i>(Type your keyword or topic)</i>
 Category	<i>(Choose: Notes / IR / AFCAT / News / Personal)</i>
 Output	<i>(Your saved result appears here)</i>

Saved Data Memory Base (Pre-Fed)

 These are example entries the tool can return when matched.

✓ IR – India & USA Strategic Relations

Keyword: Strategic Relations – India & USA

Category: IR

Response:

🇮🇳 India and the United States share a deepening strategic partnership across defence, technology, trade, and global diplomacy. The **Indo-US 2+2 dialogue** and the **Initiative on Critical and Emerging Technologies (iCET)** have advanced cooperation in AI, semiconductors, and defence innovation. Joint military exercises like Yudh Abhyas and logistics-sharing agreements highlight defence trust. Both countries are aligning more on Indo-Pacific security, climate goals, and multilateral engagement.

✓ News – India-Middle East-Europe Economic Corridor (IMEC)

Keyword: IMEC Corridor

Category: News

Response:

🌐 The **India-Middle East-Europe Economic Corridor (IMEC)**, announced at the 2023 G20 Summit, is a major strategic initiative to connect India with Europe through the Middle East via rail and shipping routes. This corridor aims to counter China's Belt & Road Initiative by enhancing infrastructure, energy connectivity, and trade across UAE, Saudi Arabia, Israel, and Europe. It reflects India's rising leadership in regional geopolitics.

✓ IR – India–Russia Relations (Energy Focus)

Keyword: India–Russia Energy Partnership

Category: IR

Response:

⚡ Despite global realignments, India and Russia maintain a stable energy partnership. Russia is India's second-largest crude oil supplier and a key nuclear energy collaborator (Kudankulam project). Long-term agreements in LNG, oil imports at discounted rates, and collaboration in Arctic energy

exploration strengthen bilateral energy security. Defence and space cooperation remain vital pillars alongside energy.
